SECTION 5 FLYING EXPERIENCE

I have had the following flying experience on the **Hughes369D** helicopter as recorded in my personal Pilot's Flying Logbook:

5.1	Type Conversion training:	Helicopter Hours
	Handling	

Signed Date

Certified correct Training Manager

Name in BLOCK CAPITALS

Licence number and type

GENERAL NOTES

- 1 'A circuit' is the flight path around an aerodrome at a specified height which facilitates an aircraft's positioning from a point on the take-off path of a given runway to a point, on the approach path of the same runway, from which a landing can be made.
- 2 'Satisfactorily' means that the applicant is in full control of his helicopter at all times, and that the successful outcome of a maneuver is never in doubt. 'Unassisted' means without verbal prompting or physical assistance with the flying controls.
- 3 Simulated engine failures for practice may be carried out provided the area is suitable for an autorotative landing, and that the fuel flow control will not be retarded.
- 4 During a hovering autorotation the fuel flow control will be retarded by the examiner.

- 5 Endorsement of the licence will date from the completion of these tests.
- 6 Only persons holding written authorisation from the Civil Aviation Authority of the Fiji Islands in respect of the helicopter used for this test may sign for the satisfactory completion of any test on this form.
- 7 This issue of CAAF Form **PL 105AC** is for use in respect of all **Hughes369D** Helicopters. Copies of this form are available from the Civil Aviation Authority of Fiji, Private Mail Bag (NAP 0354), Nadi Airport, Fiji, telephone (679) 8923155 or may be downloaded from www.caaf.org.fj.
