AIC 01/26
Effective
22 JAN 2026
ADM

This AIC replaces 05/25, which is hereby cancelled.

AIC CHECKLIST 2026

1.

A)	ADMINISTRATION (ADM)
07/10	Recording of flight times
04/11	Operation of Foreign Registered Aircraft in Fiji
04/12	International Flights by Domestic Operators
03/13	Crew Resource Management training
04/16	Improvement and Infringement Notices
07/16	Flight Crew/Aircraft Maintenance Engineers Exam Timetable
04/17	Interim Guidance – Solar Photovoltaic Systems
02/18	Cost Recovery of Aircraft Incident and Accident Investigation
05/22	CAAF Audit Procedure
07/22	International Charter Flights by Domestic Operators
08/22	Industry Consultation
09/22	Accountable Manager and Nominated Post Holders for Operators with An AOC and /or an ANR145 Approval
10/22	AOC Application Process Guidance
07/23	Validity and Processing of Aviation Documents
05/26	Introduction to the New Aircraft Maintenance Engineers' License – Examination Requirements
02/26	ATSL &ASOL Examination Timetable for 2026
03/26	Medical Standards Tests and Certification
04/26	AIRAC System/Amendments to AIP Fiji for Year 2026
01/26	AIC Checklist 2026

B)	OPERATIONS AND AIR TRAFFIC CONTROL (OPS/ATC)
08/81	Loading of aircraft
06/95	Procedures for VIP flights – domestic operations
06/97	Take-off, climb and landing performance of light aeroplanes
05/05	Operation of micro-light/ultra-light/light-sport aircraft

05/09	Use of GPS in the Fiji Islands
06/09	Planning and Conduct of VFR Flights
07/09	Transponders, EGPWS, Airspace Requirements, ELTs and the Implementation of Aircraft Surveillance
04/13	Mercy Flights
04/15	Parachute operations
03/18	Guidance on the Training Programme for the Use of Ground Proximity Warning Systems (GPWS)
05/18	Guidance on the Effective Use of the GPWS
06/18	Training of Flight Crew in ALAR and CFIT Prevention
07/18	Mode Awareness and Energy State Management Aspects of Flight Deck Automation
08/18	Guidance on the Establishment of a Flight Data Analysis Programme (FDAP)
09/18	Chief Pilot Requirements for Small Operators
10/18	Training Programs and Flight Crew Member Qualifications "Differences Training" All Categories
14/18	Performance-based Communication and Surveillance (PBCS) Implementation within the Nadi FIR
15/18	Aircraft Network Security Program (ANSP)
05/19	RNP-AR Nadi RWY20 Implementation Effective: 10 OCT 2019
07/19	AOC Application Process Guidance
08/20	Guidance Material for Helicopter Flights over water
03/21	Domestic Areas of Operations
12/21	Implementation of The Common Aeronautical Virtual Private Network (CRV)
01/22	Catalogue of APAC Flight Inspection and Flight Validation Service Providers
04/22	Collection of data on wake vortex encounters
11/22	Aerodrome Operations
12/22	Competency Assessment and Evaluation for Pilots, Instructors and Evaluators
13/22	Approval for Zero Flight Time Training
14/22	Operations of RPAS System
15/22	ADS B perf requirements for Cat or Tier 1 2 and 3 for ATC Surveillance
03/23	ADS-B OUT Exclusive Airspace within the Fiji Domestic Sector
04/23	Global Aeronautical Distress Safety System and Location of an aircraft in Distress Repository
04/25	Changes to Pavement Strength Classification System – Transition from ACN/PCN to new ACR/PCR
07/25	Guidance on the Establishment of a Flight Data Analysis Program

08/25	Guidance for Operators on Training Programme on the use of Ground Proximity Warning System (GPWS)
09/25	Selective Calling (SELCAL) 32
10/25	Guidance for Air Operators in Establishing a Flight Safety Documents System
11/25	CFIT and ALAR Training Programme
12/25	Runway Incursion Prevention and Pilot Training
13/25	Crew Resource Management Training Programme

C)	AIRWORTHINESS
04/94	Guidance on airworthiness and performance requirements – public transport aircraft
04/98	Certification and airworthiness standards of aircraft
09/98	Licensed aircraft maintenance engineers – certification responsibilities of type rated/authorised engineers in relation to Air Navigation Regulations 14, 15, 16 and FJAR 145
04/99	Acceptance of calibration and measurement systems
10/99	Applications for certification of aircraft and modifications
02/02	Aircraft Maintenance Organisation training requirements
02/07	On Condition Maintenance Programs (OCMP) for Pratt & Whitney Canada Inc. PW100 series engines
03/07	Escalated operating time between overhauls for Pratt & Whitney Canada PT6 engine series
04/14	Aeronautical Maintenance Certificate
05/16	Issue of Limited Authorizations to Pilots for Daily Inspections & Minor Maintenance
02/17	Aircraft Maintenance Engineer's Licence (AMEL)
03/17	Acceptance of Aircraft Components and Material
04/20	Adoption of UK Airworthiness Notices
08/23	Potential Risk of 5G to Radio Altimeters and Mitigations

D)	GENERAL
05/84	Fuelling of aircraft
05/87	Wind shear

E)	AERONAUTICAL INFORMATION SERVICES (AIS) AND MAPS & CHARTS
03/22	Aeronautical Information Package
