Vendors are required to complete the schedule below for each model offered. All information must be accurate, clearly stated, and supported with official specification sheets. Rows marked “EV only” are not applicable to Hybrid submissions; rows marked “Hybrid only” are not applicable to full-EV submissions.

1. Vehicle Category (Select One per Schedule)

Category	Select (✓)
EV Twin-Cab – 2.4 – 3 Ltr equivalent	
Hybrid Twin-Cab – 2.4 – 3 Ltr	

2. Vehicle Specifications

Specification Requirement	Vendor Response
A. General (All Vehicles)	
Make & Model	
Country of Manufacture	
Year of Manufacture (New)	
Body Type (Twin-Cab)	
Drivetrain (2WD / 4WD / AWD)	
B. Electric Drive (EV / Plug-in Hybrid)	
Battery Capacity (kWh) – EV only	
WLTP Electric Range (km) – EV only	(≥300 km for Twin-Cab preferred)
Electric Motor Output (kW/HP)	
Torque (Nm)	
Onboard AC Charger Capacity – EV only	(≥7 kW required)
DC Fast-Charge Compatibility – EV only	Must support CCS2 standard
0–80% DC Fast-Charge Time – EV only	
Regenerative Braking	(Yes/No)
C. Hybrid / Combustion Details (Hybrid only)	
Hybrid System Type	(Full / Mild / Plug-in PHEV)
Engine Type (Petrol / Diesel)	
Engine Capacity (Litres / cc)	
Fuel Tank Capacity (Litres)	
Combined Fuel Economy (L/100km)	
CO ₂ Emissions (g/km)	
Combined System Power Output (kW/HP)	(Engine + Electric Motor)

Specification Requirement	Vendor Response
Transmission Type	<i>(Auto / CVT / Manual)</i>
D. Safety & Features (All Vehicles)	
Safety Rating (ANCAP / Equivalent)	
Airbags (No. & Type)

Battery Warranty (Years / KM) – EV/PHEV	
Engine Warranty (Years / KM) – Hybrid	
Motor / Drivetrain Warranty	
Service Intervals	
Service Centre Location(s)	
Training for CAAF Staff	<i>(EV/Hybrid operation & safety)</i>
Maintenance Package Options	

4. Charging Infrastructure Proposal (EV / PHEV – Optional but Preferred)

Vendors may offer a turnkey charging solution. Pricing must be listed separately for AC and DC equipment.

4.1 AC Charging Equipment (Wallbox Chargers) – ≥7 kW minimum; 11–22 kW preferred

AC Charger Details	Vendor Response
Charger Model	
Rated Output (kW)	
Connector Type	<i>(Must be Type 2)</i>
Installation Cost (FJD)	
Charger Unit Cost (FJD)	

AC Charger Details	Vendor Response
Total AC Charging Solution Cost	

4.2 DC Charging Equipment (Fast Chargers) – CCS2

DC Fast-Charger Details	Vendor Response
Charger Model	
Rated Output (kW)	<i>(15–60 kW preferred for CAAF)</i>
Connector Type	<i>(Must support CCS2)</i>
Installation Cost (FJD)	
Charger Unit Cost (FJD)	
Total DC Charging Solution Cost	

5. Comprehensive Price Schedule – Vehicles

5.1 Vehicle Pricing

Cost Component	Price (FJD)
Base Vehicle Price	
EV Battery Included (Yes/No, cost if separate)	
Standard Accessories	
Registration, Road Levy & Licensing	
Insurance (if offered)	
Delivery Costs

6. Total Turnkey Cost Summary

(For vendors offering both vehicle + charging solution)

Item	Total (FJD)
Vehicle Price (EV / Hybrid)	

Item	Total (FJD)
AC Charging Solution (Total)	
DC Charging Solution (Total)	
Training & Maintenance Package (if any)	
GRAND TOTAL (FJD)	

7. Compliance Checklist

Mandatory Requirement	Compliant (Yes/No)
CCS2 DC fast-charge compatibility (EV only)	
Onboard AC charging ≥ 7 kW (EV only)	
WLTP Range ≥ 300 km – Twin-Cab (EV only)	
Hybrid fuel economy & CO ₂ data provided (Hybrid only)	
New vehicle, latest model year	
Warranty provided
